

KING CORE ELECTRONICS INC.

Your Best EMI Solution Partner

A Company with Health, Happiness and Prospect

COMPANY INTRODUCTION

- § Date of Establishment: **Nov. 29, 1986.**
- § Location: **Taiwan Taoyuan, 162,000 ft² (13,700M²)**
China Suzhou, 614,000 ft² (56,700M²)
- § Capital: **USD 27.8 M. (2016/6/30)**
- § President: Henry Yang
- § General Manager: Rex Chen
- § Employees: **~350 Persons**

COMPANY HISTORY

- a 1986 : Established to produce ferrite cores
- a 1995 : The second factory established to produce SMT multilayer chip beads / inductors.
- a 1996 : ISO 9000 certificated
- a 1999 : Foundation Laying of King Core – Suzhou China
- a 2001 : To be listed company on OTC (Stock Code : 6155)
- a 2003 : The third factory established to produce SMT precision chokes and coils.
- a 2006 : To be listed company on TWSE
- a 2008 : ISO 14000 certificated
- a 2009 : To be SONY Green Partner
- a 2009 : IECQ QC080000 certificated
- a 2012 : TS16949 certificated
- a 2013 : To invest in developing GHz filter
- a 2014 : To invest in developing mini power choke / inductor

AWARD & HONOR

- § 1997 : **The first computerized ferrite factory in Taiwan** and also the example factory by government Taiwan Small and Medium Enterprise Administration Ministry of Economic Affairs.
- § 1999 : Awarded “**the Rising Star**” by Government the best Medium and small enterprises.
- § 2000 : Been Awarded “ **The Achievement Price of Industrial Pollution Prevention and Waste Control**” by Ministry of Economic Affairs, ROC
- § 2000 : Been Awarded “**The Best Center-satellite Factory of Environment Management**” by Compal Computer Corp.
- § 2001 : KC’s Founder and President, Mr. Yang, been awarded “**24th Annual Models of Chinese Youth Entrepreneur**”
- § 2002 : Been awarded by Asus Computer Inc as the “**2001 the Best Cooperative Supplier**”
- § 2002 : Been selected by Global Views Monthly as the **24th Best-Performance Company in Info Tech Top 200 of Taiwan**
- § 2005 : Been selected by Deloitte as the **Top 500 of Asia Tech. company**
- § 2009~2015 : **Hitachi best performance vendor award.**

MAIN PRODUCTS

§ EMI Suppression Ferrite Cores

1 **500 tons/ month**

§ SMT Multilayer Chip Beads & Inductors

1 **300 kkpcs/ month(0402/0603)**

§ Wound Chip inductor & Choke

1 **100 kkpcs/ month**

§ Ferrite Absorber

1 **1kkpcs/ month**

Dividend (Total)	2.66	2.56	1.6	2.3	1.36	1.11	1.25	1.7	1.3	1.15
Payment ratio	82.61%	82.85%	77.67%	87.79%	89.47%	127.59%	89.29%	117.24%	89.66%	94.26%

Note :Employee bonus as expenses since year 2008.

KC Product Development Roadmap

Product Target	Major Knowhow	Market Application
GHz Common Mode Filter / Choke	Precision and patent LTCC design and manufacturing	Ultra-high speed differential signal interface
GHz impedance suppression component in Multilayer chip design and material	Material composition, inner circuit design, precision printing technique	GHz chip suppressor for EMI/RFI solution application
EMI suppression absorber ferrite material	Material composition, pressing technique, sintering technique	NFC, WPC, EMI/RFI shielding tool, EMI suppression component
Higher current multilayer chip bead	Material composition, inner circuit design, lamination & sintering technique	High current 3C product's EMI & power solution
Mini power choke	Material composition, inner circuit design, lamination & winding technique	Miniaturization 3C product's EMI & power solution
